A WORD FROM OUR FOUNDER

In a confusing and chaotic world, truth and reality are hard to ascertain. Suffering, though, is real and ascertainable. Suffering, unfortunately, is easy to ignore. Through the courtesy of my friends at Baker Botts, I have become familiar with the extraordinary work done by the Law Foundation of Silicon Valley. I am proud to be a donor, and urge you all to do the same. Check them out [here](#).

Warm regards,

David

WELCOMING OUR NEW CLIENTS

We are proud to have CloudFlare and The Boundary join our esteemed roster of clients.

WELCOMING OUR NEW ATTORNEYS AND LEGAL PROFESSIONALS

Join us in welcoming Louise, Mike, and Jian to the team. We'd also like to give a very special welcome to Matt Bertenthal (pictured), who is re-joining our team—we're delighted to have you back, Matt. Their deep experience, wealth of knowledge, and shared commitment to excellence will play a vital role as we continue to innovate and deliver exceptional legal services to our clients.

"Providentia was able to quickly offer an excellent candidate pool from which we selected a highly experienced attorney who has been able to provide high quality legal support right out of the gate. The combination of law firm and big tech in-house experience which is common to the Providentia attorney team means that they reach standards of excellence and value that positively differentiate them from other law firms and legal staffing agencies."

ABOUT PROVIDENTIA

Providentia solves the in-house legal dilemma of how to do more for less. Our model distinguishes us from both traditional law firms and legal staffing agencies. Clients are assured that our attorneys have the backing of a law firm with the highest ethical and professional standards.

Prolawyer by Providentia

Our law firm provides clients with seasoned attorneys, who come with deep in-house big tech experience, to support specific legal projects or in-house legal teams. Our secondment solution, Prolawyer by Providentia, will help you do more for less, complete major projects, and close transactions at speed.
